PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with 2+ years of experience building **scalable, high-performance web applications** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js). Strong expertise in **RESTful APIs, dashboard development, workflow automation, and modular UI architecture**. Proven ability to translate Figma designs into responsive interfaces and deliver **enterprise-grade SaaS solutions** in Agile environments. Passionate about clean code, **performance optimization, and scalable system design**.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3
Frontend Technologies: React.js, Three.js, React Router, React Flow, Bootstrap, Tailwind CSS, Sass
Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt
Databases: MongoDB, MongoDB Atlas, Mongoose
Data Visualization & Tools: Apache ECharts, Flowise, Camunda
Cloud & Media: Cloudinary
Developer Tools: Git, GitHub, VS Code, Postman, Jira, Confluence
Core Concepts: Data Structures & Algorithms (Arrays, Strings, Linked Lists, HashMaps, Recursion)
Methodologies & Practices: SDLC | Agile Methodology | API Integration | Workflow Automation | Performance Optimization | Code Splitting | Lazy Loading

WORK EXPERIENCE

Full Stack Developer **Nov 6, 2023 – Present**
Mobius Networks Pvt. Ltd., Hyderabad

Project 1: XPX Platform (Enterprise SaaS – DTaaS Ecosystem)

- Led design & documentation of XPX Suite — a 10-module Mobius Intelligent App ecosystem.
- Contributed to 6 core modules: Marco, Moscribe, Voxa, RunRun, CX Delight, Adwize.
- Translated Figma designs into **responsive**, high-fidelity UI across desktop and mobile.
- Developed interactive dashboards using **ReactJS, NodeJS, and Apache ECharts**.
- Played a 60–70% contribution role in building Voxa, a multi-channel engagement platform.
- Implemented backend workflows for validation, campaign automation (SMS, Email, Instagram, Facebook, LinkedIn).
- Integrated **Cron-based scheduling systems** for campaign automation.
- Built reusable UI components deployed across multiple XPX modules.
- Developed Node.js server for automated schema generation from UML inputs.
- Implemented lazy loading and route-based code splitting to improve **performance and scalability**.
- Maintained high-quality documentation and clean, maintainable code.

Project 2: AOF (Agent Orchestration Framework)

- Designed chatbot components for multi-turn, context-aware conversations.
- Integrated backend APIs for real-time validation and workflow execution.
- Built **reusable modular conversation flows** with error handling.
- Developed **UML hierarchical generator** for agent visualization.
- Automated CRUD operations via Flowise agents.
- Created real-time **monitoring dashboards** to track agent activity and API performance.
- Integrated AoF APIs with Flowise to orchestrate backend workflows.

PROJECTS

3D Environment (React + Three.js + Blender) **Live Demo:** Link | **GitHub:** Repository

- Built immersive 3D environment using ReactJS and Three.js.
- Implemented avatar lip-sync animation synchronized with audio.
- Integrated Blender models with web-based rendering pipeline.
- Developed real-time audio-driven animation rendering.

Car Rental Application (MERN Stack) **GitHub:** Repository

- Developed full-stack car rental system using React, Node.js, MongoDB Atlas.
- Implemented secure JWT-based authentication with bcrypt.
- Designed MongoDB schemas with full CRUD functionality.
- Integrated REST APIs using Axios.
- Implemented routing using React Router.
- Built scalable backend architecture using Express.js.

InstaClone (MERN + Cloudinary) Live Demo: Link | **GitHub:** Repository

- Built Instagram clone with authentication & social interaction features.
- Integrated Cloudinary for media upload and storage.
- Developed feed posting, likes, and social engagement features.
- Designed responsive UI using React.js.

Book Store Application (React + Node.js +Express.js+ MongoDB) Live Demo: Link | **GitHub:** Repository

- Built a full stack Book Store Application with CRUD functionality for managing books.
- Developed features to add, edit, delete, and view books with real-time updates.
- Integrated Cloudinary for image upload and storage of book covers.
- Implemented search functionality and personalized Wishlist.
- Designed responsive UI using React.js.

Portfolio Website Live Demo: Link

- Developed personal developer portfolio using modern frontend technologies.
- Showcases projects, skills, and contact integration.

EDUCATION

B.Tech
S.R.K.R Engineering College, Bhimavaram | ***CGPA: 8.0***

Diploma in Engineering
A.P.T, Kakinada | ***Percentage: 90.84%***

Class X
CBSE, Vidyanjali School | ***CGPA: 9.6***

CERTIFICATIONS

- 10x Academy – Full Stack Development Bootcamp
